1. The Iowa Works at Bautzen manufacture frames for tanks (Panzers). They also make parts for railway guns, which are sent to the Soviet Union.
2. The Priemerburg (Priemerwald) Works are being enlarged. Machine tools and lathes have been delivered recently from Oschersleben, from the WEMA machine tool factory there, which largely works for the Soviet Union. New workshops are being made ready. The shops destroyed by bombing and demolition are being restored and will work again. The Rostock Building Construction Union is doing the new building and the clearing up of rubbish. Quarters have been made ready for workmen from outside. Former workmen's barracks in the woodlands are being restored.
3. More skilled workmen of the excavating and bridge building division of the Potsdam Building Construction Union (Bau-Union Potsdam, Abt. Erd-und Brueckenbau) have been sent to the demolition and construction project at Rostock-Marienehe.
